### **RULING ON ENTITLEMENT**<sup>1</sup>

On September 1, 2021, Steven Peterson filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). Petitioner alleges that he suffered Guillain-Barre Syndrome (“GBS”) as a result of an influenza (“flu”) vaccine received on October 9, 2019. Petition at 1. Petitioner further alleges he received the vaccine in the United States, his symptoms persisted for more than six months, and neither Petitioner nor any other party has ever filed an action, or received compensation in the form of an award or settlement, for Petitioner’s vaccine-related injury. Petition at ¶¶ 1, 14-16. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On August 31, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that Petitioner has satisfied the criteria set forth in the Vaccine Injury Table and Qualifications and Aids to Interpretation, which afford Petitioner a presumption of causation if the onset of GBS occurs between three and forty-two days after a seasonal flu vaccination and there is no apparent alternative cause. *Id.* at 9.

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
